

ejercicio 1.10.6 = 43

ejercicio. 1.10.7

A screenshot of a Windows file explorer window titled 'Abrir con Documentos de G...'. The main content area shows a terminal window with a red title bar. The terminal window has a dark background and displays a list of tasks in a light-colored font. The tasks are numbered 1 through 6 and include instructions for using the terminal, nano editor, and grep command to process FASTA files. The terminal window is open to a directory 'MINGW64/c:/Users/HP/Downloads/CSBcat/unix/sandbox'.

```
1. Change directory to MINGW64 ~/Downloads/CSBcat/unix/sandbox (master)
2. What is the size of the file Marra2014.data.fasta?
3. Create a copy of Marra2014.data.fasta in the sandbox and name it my_file.fasta.
4. How many contigs are classified as isogroup00036?
5. Replace the original "two-spaces" delimiter with a comma.
6. How many unique isogroups are in the file?
```
